

CoolShoe sizes for shoes and flip flops are mentioned in French size.

With the helping board below, you can find your size easily.

How to choose your size?

Advice: Calculate my size

Stand bare foot on a white sheet.

Make a mark just above the big toe and another behind the heel.

Measure the length between the two and add 1 cm. Divide the result by 0.666

Example: my foot measures 24,2 cm :

$$24,2 + 1 = 25,2$$

$$25,2 / 0,666 = 37,84$$

I wear a size 38!

If you are in a middle size, we advise you to buy the biggest size.

EU Taille Double Cool Shoe	EU Taille Simple Cool Shoe	Taille US	Taille UK
